DETAILED ACTION

Remarks

1. In response to the request for Pre-Appeal conference filed on 19-August-2005, claims 1-48 are presently pending in the application, of which, claims 1, 35, 42, and 45-48 are presented in independent form.

Allowance

- 2. Claims 1-48 are allowed over the prior art made of record.
- 3. The following is an examiner's statement of reasons for allowance:

The applicant's arguments presented in the request for Pre-Appeal conference filed on 19-August-2005, have been fully considered and after further review of the cited prior art, are deemed persuasive:

Independent claims 1, 35, 42, and 45-48 each recite the limitations of, "obtaining a spectral signature based on the spectral features of each audio file", "obtaining a rhythmic beat representation of each audio file", and "summing the spectral signature and the rhythmic beat to determine similarities between musical works", which are not suggested or taught by the prior art made of record.

Claims 2-24, 36-41, and 43-44 are allowed over the prior art made of record for being dependents of allowed independent claims 1, 35, and 42 respectively.

Application/Control Number: 10/004,157

Art Unit: 2165

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of art with respect to searching music databases, obtaining and comparing spectral signatures of musical works in general:

Patent/Pub. No.	Issued to	Cited for teaching
2005/0232411 A1	Srinivasan et al.	Spectral signature comparison between musical works.
